

February 24, 2012

It is with great pleasure that today we announce that Eric Davies has been promoted to the office of Vice President, Manufacturing Operations.

Over the course of his twenty year tenure with G&E, Eric has made many significant contributions to the success of our company. You do not have to look far to see the numerous improvements to the facility. Of significant note is the recent capacity expansion which included finishing capacity on the Green line and the upgrade to our Reprocessing line.

Eric will continue to identify areas where we can improve our production and provide his leadership to all of our manufacturing personnel.

Congratulations Eric!
